## Multi-Purpose Products

Roseplast's plastic Products can be used for liquids and solids, including grain, paint, yard supplies, or other items in your restaurants, studios, job sites, or home. This products are made with high-quality raw materials. They are suitable for holding a variety of substances, including foods, animal food, liquids, tools, paint, or any other substances.

Our Products provide the perfect storage space and are free from harmful chemicals, making it the best way to keep food clean and fresh. Specially, this food bucket's efficiency and minimalist design make it a must-have for every food enthusiast.

These products are made with pure metal handles with plastic and plastic molded grip handles to stay strong for heavy loads.

All of the buckets are Suitable for transferring heavy loads.

# Who we are?

This unit, known as Roseplast, started its activities in 1981 with two manufacturing machines of inflatable plastic containers which, at the beginning, produced 4 liter container mold for industrial oils manufacturing companies. This company gradually took the step, by creating variety in designs of inflatable containers with 250 cc and 0.5, 1, 3.5, 10 and 20 liter volumes, toward evolution in packaging of these industries.

While the quality of product has always a special importance, this unit rapidly changed to one of the prominent manufacturers and developed, based on experiences and market knowledge, and produced various packaging products by plastic injection machineries such as 1.5, 4.5, 4, 10 and 20 liter round bucket containers and 4, 6, 8 and 10 liter oval bucket containers which used in paint and resin, chemical, lubricant, agricultural and food industries.

Overtime, this company, due to receive the welcome for these packages and market and customers demands, changed its injection machines to the advanced and rapid injection machines and started IML lines since 2012 and, at the present, produces all of its IML bucket containers with 6 IML robots. This company also entered into the food industries by using this technology in producing thin-walled containers with IML method.

Another business field is agricultural industries in which this company produces and supplies the containers, sometimes in the form of Pet bottles, by Pet injection machineries and Pet inflation machines, and also produces 55, 90 and 105 gram pre-forms which used in packing pesticides and agricultural fertilizers in different designs and sizes.

Among capabilities of this company, is Coex Multi-layer Machine (three- layer machine) which its products can be used in agriculture and food industries.

This company, in addition to injection and inflation machines, is equipped with design printing machines on containers which can print plans on the requested containers by customers in the forms of silk and six color offset printings.

# Contents

Today, a significant number of manufacturing industries are highly dependent on proper packaging for their products. Their most important concern is to deliver healthy and fresh products to customers. Also, they need durable, safe and affordable packaging to maintain the quality and long-term storage of their products in their warehouses and distribution and sales systems.

If you are one of the industrial producers and you need durable and beautiful packaging, our company offers you the best plastic packaging and services related to the packaging chain.

## سپیدان رزپلاستیک، «از شروع تا امروز»

شرکت سپیدان رزپلاستیک در سال ۱۳۶۰ و با تعداد دو دستگاه ماشین تولید ظروف پلاستیک بادی آغاز به کار کرد که در ابتدا با ساخت قالب ظرف چهار لیتری جهت بسته بندی روغنهای صنعتی تولیدات خود را شروع و به تدریج با ایجاد تنوع در طرحهای ظروف بادی در حجم های ۲۵۰ سی سی، نیم لیتر، ۱ لیتر، ۳.۵ لیتر، ۱۰ لیتر و ۲۰ لیتر گامی در تحول بسته بندیهای این صنایع برداشت. این شرکت به سرعت توانست با استفاده از تجارب کسب شده و شناخت بازار، اقدام به توسعه نموده و با بکارگیری ماشین آلات تزریق پلاستیک محصولات متنوعی در زمینه بسته بندی تولید نماید.

از جمله تولید ظروف سطلی در حجمهای : ۱.۵ لیتر، ۴.۵ لیتر، ۴ لیتر، ۱۰ لیتر و ۲۰ لیتر گرد و ۴ لیتر، ۶ لیتر، ۸ لیتر و ۱۰ لیتر بیضی که مورد مصرف صنایع رنگ و رزین، شیمیایی، روان کننده ها، کشاورزی و همچنین غذایی می باشد. همچنین بر اساس نیاز بازار و مصرف کنندگان این واحد با افزودن ماشین آلات پیشرفته سریع، خطوط IML را راه اندازی نموده که در حال حاضر با ۶ خط ربات IML قادر به تولید کلیه ظروف سطلی خود بصورت IML میباشد. همچنین با استفاده از این تکنولوژی در صنایع مواد غذایی نیز وارد شد که با ساخت ظروف جداره نازک و با روش IML محصولاتی را برای صنایع غذایی تولید می نماید.

ظروف پر کاربرد در صنایع کشاورزی که بعضاً بصورت بطریهای Pet می باشد نیز با بکارگیری از ماشین آلات تزریق Pet و باد کن Pet، پریفورمهای ۵۵ گرم، ۹۲ گرم و ۱۰۵ گرمی جهت بسته بندی سموم و کودهای کشاورزی به سبد محصولات افزوده شد.

دیگر توانمندی های این واحد در اختیار داشتن ماشین چند لایه (سه لایه) Coex میباشد که میتواند تولیدات آن در کشاورزی و همچنین صنایع غذایی مورد استفاده قرار گیرد.

این واحد علاوه بر ماشین آلات تزریق و بادی، مجهز به ماشین آلات چاپ طرح روی ظروف شامل چاپ سیلک و چاپ افسست ۶ رنگ می باشد که در صورت درخواست مشتریان این خدمات نیز به ایشان ارائه می گردد.

## Sepidan Rose Plastic has successfully awarded

- Process of Customers' Complaints Handling Certificate (ISO 10002:2018)
- Process to Monitor and Measure Customers' Satisfaction Certificate (ISO 10004:2018)
- Tidiness Management System Certificate (7S) the Quality Management Certificate (ISO 9001-2015)
- Environmental Management systems Certificate (ISO 14001:2015)
- Occupational health and safety (ISO 45001 :2018)
- Food Industries Safety System Certificate (ISO 22000:2018)

This manufacturing unit has changed its name to Sepidan Rose Plastic Production Company (Ltd.), on 09.10.2010, in Companies Registration Department under registration No. 386805. This unit, at the present, works with 150 personnel and about 60 injection and inflation machines, at two separate complexes, one with an area of 5000 m2 at 58th Shirin St., Kilometer 17 of old Karaj Road (Fath) and other with an area of 12000 m2 at Esmaeilabad Industrial Park.

# Salience Benefits

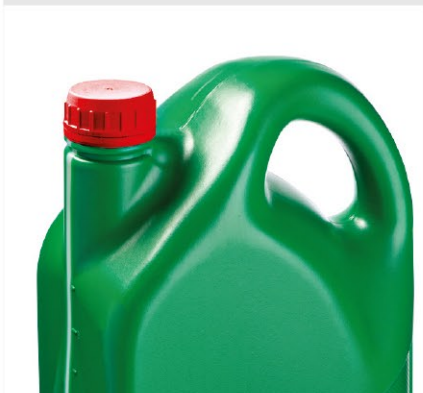

## Injected plastic containers

Roseplast's injected plastic containers are a versatile choice for a variety of applications, from food and beverage to household and industrial products.

### Feature and benefits:

- Durability and strength
- Creation of thick walls and tight tolerance
- Strong and able to withstand the rigors of handling.
- Subjected to high levels of stress or impact
- Eco-friendly materials, recyclable, minimum the environmental impact of disposal.
- Customization options, including color, texture, and design
- Unique and distinctive products that stand out on the shelf

## Inflatable plastic containers

These containers are designed to be lightweight, making them ideal for situations where space is limited or products need to be moved frequently.

### Feature and benefits:

- from high-quality, eco-friendly materials that are recyclable and biodegradable.
- Designed to be reusable, which reduces waste and conserves resources.
- for toxic substances, making them a safe and sustainable choice for a wide range of applications
- Customized with a range of additives, such as antimicrobial agents and UV stabilizers, which help to extend the products' lifespan.

## PET Plastic Container

PET (Polyethylene Terephthalate) is a widely used, recyclable plastic material that is known for its strength, durability, and clarity.

### Feature and benefits:

- lightweight, and easy for transport
- Ideal for a range of applications in the food, beverage, and chemical industries
- ability to preserve the quality and freshness of the products they contain.
- excellent barrier against oxygen, moisture, and other contaminants.
- Recyclable material that can be easily repurposed into new products, reducing waste and conserving resources.

## CAP & Closure

### Feature and benefits:

- Deter tampering
- Deter package pilferage
- Deter product adulteration
- Improved closure strength during shipping
- Brand and Logo inserting

### "100% Safe Caps"

*In addition to the resistance and strength of packaging containers, one of the other important indicators is their safety level against the penetration of air, liquids and any environmental microorganisms into the packaging. The design, engineering, and manufacturing quality of containers produced by Sepidan Roseplastic Company is such that it makes it impossible for any of the above factors to penetrate into the container and the occurrence of spoilage of the packaged materials inside the container.*

### درب های ۱۰۰٪ ایمن

علاوه بر مقاومت و استحکام ظروف بسته بندی، یکی از شاخصه های مهم دیگر، میزان ایمنی آنها در برابر نفوذ هوا، مایعات و هر گونه میکروارگانیسمهای محیط به داخل بسته بندی است. طراحی، مهندسی و کیفیت ساخت ظروف تولیدی شرکت سپیدان رزپلاستیک به گونه ای است که امکان نفوذ هرگونه عوامل فوق بدخل ظرف و بروز فساد مواد بسته بندی شده داخل ظرف را غیر ممکن می سازد.

## Best solution of food grade packaging:

Roseplast's inflatable plastic containers offer significant savings during the produce stage as well. The containers' unique design allows for precise control over the amount of air inside, which helps to maintain optimal humidity levels and prevent spoilage. This is particularly important for delicate produce items, such as fruits and vegetables, which require specific environmental conditions to remain fresh and intact during transportation and storage. By using Roseplast's containers, producers can reduce the amount of spoilage and waste, resulting in lower costs associated with discarded produce items.

By using Roseplast's containers, producers can reduce the amount of spoilage and waste, resulting in lower costs associated with discarded produce items.*

طراحی منحصر به فرد این ظروف امکان کنترل دقیق بر میزان هوای داخل را فراهم می کند که به حفظ سطح رطوبت مطلوب و جلوگیری از فساد کمک می کند. این امر به ویژه برای محصولات حساس مانند میوه ها و سبزیجات که به شرایط محیطی خاصی نیاز دارند تا در طول حمل و نقل و ذخیره سازی تازه و دست نخورده باقی بمانند بسیار مهم است. با استفاده از ظروف Roseplast، تولیدکنندگان می توانند میزان فساد و ضایعات را کاهش دهند و در نتیجه هزینه های مربوط به اقلام دور ریخته شده تولید را کاهش دهند.

HELLO  
*Nature*

## A Solution for Cosmetic packaging:

These containers are made of high-quality PET (Polyethylene Terephthalate) plastic, which is known for its durability, clarity, and resistance to chemicals. This makes them ideal for a wide range of products, including **cosmetics, chemicals, and toxic substances**. The containers are designed with safety in mind, featuring secure closures and tamper-evident seals to prevent accidental spills or leaks. Additionally, they are lightweight and stackable, making them easy to transport and store in large quantities.

امروزه ظروف PET یکی از بهترین انتخاب ها برای بسته بندی انواع محصولات شیمیایی و طبیعی در صنایع آرایشی بهداشتی، سموم کشاورزی، مواد شیمیایی هستند. این ظروف بدلیل درب های فیکس شونده خاص مانع هرگونه تبادل محتویات ظرف با هوا می شوند و همین امر باعث عدم نشست و حفظ کیفیت محتویات ظرف می شود.

## "Patented Design"

Yes, Roseplast's inflatable plastic containers are patented in series, which means that they have been granted intellectual property protection by the relevant authorities. The patents cover various aspects of the containers' design, manufacturing process, and functionality, ensuring that Roseplast has exclusive rights to produce and sell these products. This patent protection provides a competitive advantage for Roseplast in the market and ensures the quality and uniqueness of their products.

## Understanding of Customer Needs

"to be best solution"

Chemical poisons, liquid fertilizers and pesticides and many chemicals in agricultural fields require safe packaging and long-term storage because they are always exposed to chemical reactions, high light, rodents and damage caused by handling. Plastic containers produced by Roseplastic company, which are prepared using high-quality raw materials, are a suitable option for storing agricultural chemicals.

سموم شیمیایی، کودهای مایع و مواد ضد آفت و بسیاری از مواد شیمیایی در مزارع کشاورزی نیازمند بسته بندی امن و نگهداری طولانی مدت هستند زیرا همواره در معرض واکنش های شیمیایی، نور زیاد، چوندگان و صدمات ناشی از جابجایی نیازمند می باشند. ظروف پلاستیکی تولید شده در شرکت رزیلاستیک که با استفاده از مواد اولیه مرغوب تهیه می شوند گزینه مناسبی برای نگهداری مواد شیمیایی کشاورزی میباشند.

# CAP & CLOSURE

Exclusive closure produced by Roseplastic company in various models, including simple cap, valves, funnels, all kinds of measuring cups, closure for poisons and powder spraying, as well as the presence of a sealing foam layer to create high safety and resistance and high fixability.

It is anti-leakage and anti-counterfeiting, which provides the possibility for customers to have sufficient assurance of the health of their product packaging.

Also, the ability to insert logos and special marks of brands for better marketing of products on the caps and closure is also provided.

درب های اختصاصی تولید شده توسط شرکت رزپلاستیک در مدل های گوناگون اعم از درب های ساده، سوپاپ دار، قیفی، انواع پیمانه ها، درب مخصوص سموم و پاشش پودری و همچنین وجود لایه فوم آب بندی جهت ایجاد ایمنی و مقاومت بالا و قابلیت فیکس شونده بالایی داشته و ضد نشی و ضد تقلب می باشد که این امکان را برای مشتریان فراهم می آورد تا از اطمینان کافی از سلامت بسته بندی محصولات خود برخوردار گردند.

همچنین قابلیت درج لوگو و نشانه اختصاصی برند ها جهت بازاریابی بهتر محصولات بر روی درب نیز فراهم آمده است.
